

SNAPSHOTVA

one day in the life of Virginia's libraries

Tell us why the library is important to you!

Libraries are an essential, irreplaceable public service, providing opportunities for education, personal enlightenment, job search and training, community connection, cultural awareness, and entertainment.

Libraries all over Virginia are taking a 'snapshot'—collecting information to capture the impact that Virginia libraries have on their communities on a typical day.

Thank you for helping tell the story of your library.
